KEY PROJECTS

Entaura – Enterprise Data & Policy Intelligence | Python, FastAPI, React, TypeScript, ClickHouse, PostgreSQL, Qdrant, dbt | 2026

- Three apps: Ask searches ERP records and policy documents together, Insight generates trusted analytics with charts, SQL and reasoning, Watch monitors thresholds and business rules with alerts.
- RAG and AI agents over ERP data and documents with OpenAI, Anthropic and OpenRouter models; Redis, S3 and Docker.

Invoice Extract – AI Document Extraction | Flutter, ML Kit OCR, Claude API, Node.js, SQLite | Oct 2026

- Extracts order and invoice data from PDF, Excel, CSV and photos: layout-preserving PDF tables, on-device ML Kit OCR and a Claude fallback for handwritten documents.
- Matches products, customers, routes and salesmen against SQLite master data.

AI Frontier – Multi-agent AI Release Tracker | Go, Flutter, PostgreSQL, LLMs, Docker | Oct 2026

- Six-agent pipeline (discovery, verification, report, relevance, mission, evidence) behind one provider router for OpenAI, Claude, Gemini, Mistral, Groq and Ollama.
- Prompt-injection defence by isolating source text as untrusted data; API keys encrypted at rest; Go API, worker and scheduler.
